

50W/100W/150W/200W LED FLOODLIGHT

Illuminate your world brilliantly! Our LED floodlights deliver exceptional brightness and energy efficiency.

Features

- Lower energy consumption: Compared to traditional lighting options like halogen or metal halide, LED floodlights consume significantly less electricity.
- Extended lifespan: LED floodlights have a much longer lifespan, typically lasting 50,000 hours or more.
- No warm-up time: Unlike traditional lights, LED floodlights turn on instantly to full brightness.
- Different beam angles: Available in various beam angles to suit specific lighting needs.
- Robust construction: Built to withstand harsh weather conditions, including rain, snow, and extreme temperatures.

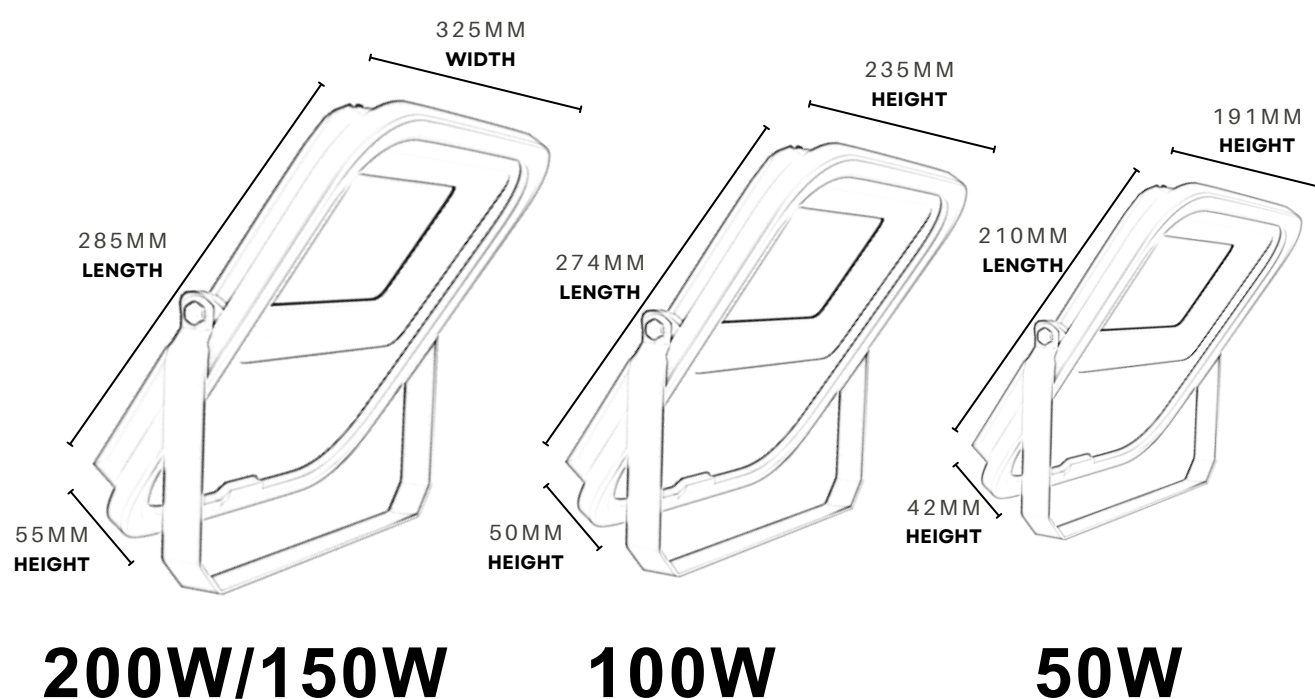

Product Benefits

- Eco-friendly
- Reduced carbon footprint
- Resistant to shocks and vibrations
- Reliable performance
- Lower heat emission

Technical Information

BRAND	QLUX	REFLECTOR	ALUMINUM SHEET
WATT	50W/100W/150W200W	WORKING TEMP	20° TO 50° C
PRODUCT TYPE	LED FLOODLIGHT	POWER FACTOR	0.98
APPLICATION	OUTDOOR	BEAM ANGLE	120°
FIXTURE TYPE	AL DIE CASTING	FREQUENCY	50HZ
HEATSINK PASTE	DUPONT	LUMEN OUTPUT	140 LM/W
IP XX	IP66	SURGE PROTECTION	6KV

Dimension

Application

LED floodlights find diverse applications, illuminating large areas like construction sites, parking lots, and sports fields. They enhance security by deterring intruders, accentuate architectural features, and create captivating ambiance in residential settings.
